

GRAND DESIGNS LIVE 2011

Stoneham are delighted to present their latest designs at Grand Designs Live 2011.

Stoneham continue to reflect the strong trend for curves, innovative island designs, individual veneers combined with colour and materials such as glass, steel, granite and corian. Clever use of storage and access to interiors is important within all Stoneham's designs and the Grand Designs 2011 include many examples of these latest intelligent storage ideas.

Within our designs Walnut is combined with Ebony Macassar and Stoneham's Evolve solid high gloss acrylic doors.

Light Oak is combined with black mirror glass and Olive Ash to provide an accent within the designs. Black Walnut is teamed with pale blue furniture and is subtly combined further with Masur Birch.

Modern living requires kitchens to link seamlessly with living areas. Stoneham demonstrate design flexibility by incorporating a living room unit in American Cherry/White painted cabinetry.

Worktop materials in a variety of thicknesses and material types combine within individual displays to provide visual impact and emphasis to key areas – Corian, glass, timber, quartz are all used in Grand Designs 2011 displays.

Grand Designs 2011

Marlborough Black Walnut (Natural) with Masur Birch veneered back panel (curved) with Natural Walnut collars. Worktops: Silestone Zirconian – 30mm +15mm painted glass +12mm Zirconian surface. LED lighting through glass. Integrated Silestone Zirconian sink to match worksurfaces.

Strata – Natural Walnut – Convex door units with Fusion Blue Ashes. Bespoke Tall Drum unit with convex curved glazed doors to upper/lower areas. 100mm mid and top banding in Masur Birch and Walnut “collars”.

LED lighting is discretely fitted below worksurfaces and within cabinetry to bring the furniture alive, yet provide a pool of subtle lighting at night time when required. LED's are reliable, energy efficient and enjoy excellent longevity.

Gaggenau – appliances, some of the finest kitchen appliance equipment available is featured exclusively within Stoneham's furniture. It reveals how versatile the furniture is to accommodate all of the latest equipment in positions to augment the design and clients preferences.

Grand Designs 2011 visitors to Stoneham's stand could register to receive a complimentary selection of drawer storage equipment and gadgets. These will perfectly suit Stoneham's range of drawers including the latest Black Intivo drawers with glass and timber accent sides.

Grand Designs 2011
